It's plain and simple. Skating is just a whole different gig from everything else. As skaters, what we think of as a great day, the rest of the world would hate. The best day full of skating leaves you laughing cause it hurts just to stand up. Scrapes and bruises are just scrapes and bruises as long as nothing's broke. When you land or learn something new it's that much further from where you were yesterday. Even completely beat down, you can't wait for what tomorrow brings. You hope it will be more of the same beating. The ride never ends and it doesn't get any better than these days. We've only just started. Enjoy the new catalog. We don't take any of this stuff for granted. Thank you and everyone who is a part of what we do. We'll see you out on the streets.

Thirteen years in the game and the original drive behind why we started Real remains the same. It was never about trying to be better, cooler or following the rules that everyone else did, it's been about dedication to the individuality in skateboarding since 1991. Skaters doing it their own way, not a day goes by when we don't remember and build on that belief. All or nothing. Do or Die. Success and failure are the same things - just depends who you ask. Enjoy the ride - roll forever.
